

Red & White Services Fleet List 1930-1975

1. Single Deck Buses

1.20 1938-42 Albion Valkyrie CX13 / Duple

Red & White received three Albion Valkyrie CX13s with Duple centre entrance bodywork in 1939. two of which, 418 and 428, were fitted with Albion EN242A 6-cylinder oil engines, and the third, 417, originally intended for the Blue Belle fleet, with a Gardner 6LW engine. Two further vehicles, 713 and 714, with Albion EN242A engines, were delivered to Cheltenham District Traction but were transferred almost immediately to the main fleet. The remaining CAX and DAX vehicles, all with Gardner 6LW engines were purchased by Ralph's Garages and were absorbed into the main fleet in 1951-53. The 1938 CAX vehicles had similar Duple B35C bodywork to the 1938 Red & White SpPV141s. The 1939 Ralph's CX13s had shallower nearside destination boxes than the Red & White examples. CWO 428 was transferred to Bristol Tramways with the Stroud area in May 1950 and returned in January 1951 during which time it was repainted into Bristol's green and cream livery, the only vehicle in the transferred batch so treated. Three more CX13s with Duple bodywork were delivered to United Welsh in 1939.
